

DAY 1- Introduction to HTML

1. Learn what HTML is, its history, and why it is used.

What is HTML?

HTML Stands for Hyper Text Markup Language. It is the standard markup language Used to create web pages. HTML defines the structure of a web page using different Elements and tags.

History of HTML

- HTML was created by Tim Beners-Lee in 1991.
- It was developed to share information on the World Wide Web.
- HTML has improved over time with many versions
- The latest version is HTML5, which supports audio, video, graphics, and modern web applications.

Why is HTML Used?

- To create web pages.
- To organize and structure webpage content.
- To display text, images, links, tables and forms.
- It works with CSS for styling and JavaScript for interactivity.

2. Understand <!DOCTYPE>, <html>, <head>, and <body>

<!DOCTYPE html>

It tells the browser that the document is an HTML5 document.

<html>

It is the root element that contains the entire HTML document.

<head>

It contains information about the webpage such as the title, meta tags, and links to CSS files

<body>

It contains all the visible content of the webpage, such as the heading, paragraphs, images, and links

Simple HTML Page

```
<!DOCTYPE html>

<html>

<head>

    <title>My First Web Page</title>

</head>

<body>

    <h1>Welcome to HTML</h1>

    <p>This is my first HTML page</p>

</body>

</html>
```

3. Explore the Root Element <html>

The <html> element is the root element of an HTML document. It wraps all the Content of the webpage, including the <head>and<body>section. Every HTML document must begin with the <html> tag and end with the </html> tag.

4. Learn About Container Elements <div> and <section>

<div>

The <div> element is a container used to group different HTML elements together. It helps organize content and is commonly used for styling with CSS.

<section>

The <section> element is used to group related content into sections. It makes the webpage more meaningful and improves readability.

Example

<section>

<h2> About Me</h2>

<div>

<p>My name is Aravind. I am learning HTML. </P>

</div>

</section>
